

TANK-1	TANK-2	TANK-3
C/C Height: 700 mm	C/C Height: 500 mm	C/C Height: 650 mm
 <p>Technical drawing of Tank-1. The side view shows a horizontal cylindrical tank with a total length of 1800 mm. The central cylindrical section has a length of 1500 mm, with 150 mm of hemispherical end on each side. The height of the central section is 700 mm. The front view shows a semi-circular end with a radius of 900 mm and a base width of 150 mm.</p>	 <p>Technical drawing of Tank-2. The side view shows a vertical cylindrical tank with a total height of 1000 mm. The central cylindrical section has a height of 600 mm and a diameter of 450 mm. The top and bottom sections are hemispherical, each with a height of 100 mm. The front view shows a semi-circular end with a radius of 400 mm and a base width of 400 mm. The central section height is 500 mm.</p>	 <p>Technical drawing of Tank-3. The side view shows a vertical cylindrical tank with a total height of 1000 mm. The central cylindrical section has a height of 750 mm and a diameter of 600 mm. The top and bottom sections are hemispherical, each with a height of 100 mm. The front view shows a semi-circular end with a radius of 400 mm and a base width of 400 mm. The central section height is 650 mm.</p>
